

MathEpi Student Timetable

2026-2027 programme | 26 October 2026 to internship from 31 May 2027

08:30-10:30	10:30-12:30	12:30-14:30	14:30-16:30	After dinner
Morning lesson 1	Morning lesson 2	Lunch	Afternoon lesson	Tutorials

Foundation handover: MES06 runs from 26 October through Tuesday 10 November. MES05 starts on Wednesday 11 November and runs through 27 November. Each therefore receives 2.5 teaching weeks, and Week 3 never has three courses running at the same time.

Programme week by week

Week	Dates	Block / activity	Courses	Milestone
W1	26–30 Oct	Block 1	MES01 Mathematical Problem Solving MES06 Scientific Computing and LaTeX	Orientation integrated: Mon 26 and Wed 28 Oct PM
W2	2–6 Nov	Block 1	MES01 Mathematical Problem Solving MES06 Scientific Computing and LaTeX	MES06 continues to Tuesday 10 Nov
W3	9–13 Nov	Block 2	9-10 Nov: MES01 + MES06 11-13 Nov: MES01 + MES05	Midweek handover; no three-course concurrency
W4	16–20 Nov	Block 2	MES03 Physical Problem Solving MES05 Introduction to R and Python	Balanced two-course week
W5	23–27 Nov	Block 2	MES03 Physical Problem Solving MES05 Introduction to R and Python	MES03 and MES05 end
W6	30 Nov–4 Dec	Block 3	MES02 Differential Equations and Modelling MES04 Introduction to Probability and Statistics	Full Block 3
W7	7–11 Dec	Block 3	MES02 Differential Equations and Modelling MES04 Introduction to Probability and Statistics	Full Block 3
W8	14–18 Dec	Block 3	MES02 Differential Equations and Modelling MES04 Introduction to Probability and Statistics	Foundation phase ends before Christmas
BREAK	19 Dec–4 Jan	Christmas Break + Reading / Consolidation	-	No teaching
W9	5–8 Jan	Block 4	MEC01 Introduction to Epidemiology (Epidemiology I) MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I)	Four-day opening week
W10	11–15 Jan	Block 4	MEC01 Introduction to Epidemiology (Epidemiology I) MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I)	Teaching continues
W11	18–22 Jan	Block 4	MEC01 Introduction to Epidemiology (Epidemiology I) MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I)	Block 4 ends

Week	Dates	Block / activity	Courses	Milestone
W12	25–29 Jan	Block 5	MEC02 Epidemiology for Disease Modelling (Epidemiology II) MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II)	Teaching continues
W13	1–5 Feb	Block 5	MEC02 Epidemiology for Disease Modelling (Epidemiology II) MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II)	Teaching continues
W14	8–12 Feb	Block 5	MEC02 Epidemiology for Disease Modelling (Epidemiology II) MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II)	Block 5 ends
W15	15–19 Feb	Block 6	MEC09 Professional, Project, and Entrepreneurship Development MEC05 Model Fitting and Validation (Mathematical Modelling III)	Teaching continues
W16	22–26 Feb	Block 6	MEC09 Professional, Project, and Entrepreneurship Development MEC05 Model Fitting and Validation (Mathematical Modelling III)	Teaching continues
W17	1–5 Mar	Block 6	MEC09 Professional, Project, and Entrepreneurship Development MEC05 Model Fitting and Validation (Mathematical Modelling III)	Block 6 ends
RW2	8–12 Mar	Reading, consolidation, assessment and catch-up	-	No new teaching
W19	15–19 Mar	Block 7	MEC06 Numerical Methods MEC07 Introduction to Data Analysis (Data Analysis I)	Teaching continues
W20	22–26 Mar	Block 7	MEC06 Numerical Methods MEC07 Introduction to Data Analysis (Data Analysis I)	Teaching continues
W21	29 Mar–2 Apr	Block 7	MEC06 Numerical Methods MEC07 Introduction to Data Analysis (Data Analysis I)	Block 7 ends
W22	5–9 Apr	Block 8	MEC08 Advanced Data Analysis (Data Analysis II) MEC10 Advanced Data Science for Epidemiology	Teaching continues
W23	12–16 Apr	Block 8	MEC08 Advanced Data Analysis (Data Analysis II) MEC10 Advanced Data Science for Epidemiology	Teaching continues
W24	19–23 Apr	Block 8	MEC08 Advanced Data Analysis (Data Analysis II) MEC10 Advanced Data Science for Epidemiology	Block 8 ends
W25	26–30 Apr	Block 9	MEE01 Survival Analysis MEE02 Time Series Analysis MEE03 Bayesian Statistics MEE04 Stochastic Models	Students take an approved elective combination
W26	3–7 May	Block 9	MEE01 Survival Analysis MEE02 Time Series Analysis MEE03 Bayesian Statistics MEE04 Stochastic Models	Teaching continues
W27	10–14 May	Block 9	MEE01 Survival Analysis MEE02 Time Series Analysis MEE03 Bayesian Statistics MEE04 Stochastic Models	Block 9 ends
RW3	17–21 May	Reading, consolidation and final assessments	-	No new teaching
W29	24–28 May	Coursework close-out + internship preparation	-	Academic phase closes
W30	31 May	MEI01 Internship begins	MEI01 Internship and Thesis	Practical application phase begins

Block 1 weekly timetable

Programme period: 26 Oct-13 Nov. Apply the teaching pattern within each course's delivery dates shown below.

MES01 Mathematical Problem Solving Delivery: 26 Oct-13 Nov (3 weeks)	Lecturer: To be confirmed
MES06 Scientific Computing and LaTeX Delivery: 26 Oct-10 Nov (2.5 weeks)	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES01 Mathematical Problem Solving Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES01 Mathematical Problem Solving Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	Orientation Week 1 only (26 Oct)	MES01 Mathematical Problem Solving Lecturer to be confirmed	Orientation Week 1 only (28 Oct)	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MES01 / MES06	Tutorials MES01 / MES06	Tutorials MES01 / MES06	Tutorials MES01 / MES06	Tutorials MES01 / MES06

Block 2 weekly timetable

Programme period: 11-27 Nov. Apply the teaching pattern within each course's delivery dates shown below.

MES01 Mathematical Problem Solving Delivery: 26 Oct-13 Nov (3 weeks)	Lecturer: To be confirmed
MES06 Scientific Computing and LaTeX Delivery: 26 Oct-10 Nov (2.5 weeks)	Lecturer: To be confirmed
MES05 Introduction to R and Python Delivery: 11-27 Nov (2.5 weeks)	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES05 Introduction to R and Python Lecturer to be confirmed	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES05 Introduction to R and Python Lecturer to be confirmed	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES05 Introduction to R and Python Lecturer to be confirmed	MES01 Mathematical Problem Solving Lecturer to be confirmed	MES06 Scientific Computing and LaTeX Lecturer to be confirmed	MES05 Introduction to R and Python Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MES01 / MES06 / MES05	Tutorials MES01 / MES06 / MES05	Tutorials MES01 / MES06 / MES05	Tutorials MES01 / MES06 / MES05	Tutorials MES01 / MES06 / MES05

Block 3 weekly timetable

Programme period: 30 Nov–4 Dec to 14–18 Dec. Apply the teaching pattern within each course's delivery dates shown below.

MES02 Differential Equations and Modelling Delivery: Full block	Lecturer: Prof. Blaise Tchapnda
MES04 Introduction to Probability and Statistics Delivery: Full block	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda	MES04 Introduction to Probability and Statistics Lecturer to be confirmed	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda	MES04 Introduction to Probability and Statistics Lecturer to be confirmed	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda
10:30-12:30 Morning lesson 2	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda	MES04 Introduction to Probability and Statistics Lecturer to be confirmed	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda	MES04 Introduction to Probability and Statistics Lecturer to be confirmed	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MES04 Introduction to Probability and Statistics Lecturer to be confirmed	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda	MES04 Introduction to Probability and Statistics Lecturer to be confirmed	MES02 Differential Equations and Modelling Prof. Blaise Tchapnda	MES04 Introduction to Probability and Statistics Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MES02 / MES04	Tutorials MES02 / MES04	Tutorials MES02 / MES04	Tutorials MES02 / MES04	Tutorials MES02 / MES04

Block 4 weekly timetable

Programme period: 5–8 Jan to 18–22 Jan. Apply the teaching pattern within each course's delivery dates shown below.

MEC01 Introduction to Epidemiology (Epidemiology I) Delivery: Full block	Lecturer: To be confirmed
MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Delivery: Full block	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed	MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Lecturer to be confirmed	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed	MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Lecturer to be confirmed	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed	MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Lecturer to be confirmed	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed	MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Lecturer to be confirmed	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Lecturer to be confirmed	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed	MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Lecturer to be confirmed	MEC01 Introduction to Epidemiology (Epidemiology I) Lecturer to be confirmed	MEC03 Introduction to Mathematical Modelling (Mathematical Modelling I) Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MEC01 / MEC03	Tutorials MEC01 / MEC03	Tutorials MEC01 / MEC03	Tutorials MEC01 / MEC03	Tutorials MEC01 / MEC03

Block 5 weekly timetable

Programme period: 25–29 Jan to 8–12 Feb. Apply the teaching pattern within each course's delivery dates shown below.

MEC02 Epidemiology for Disease Modelling (Epidemiology II) Delivery: Full block	Lecturer: To be confirmed
MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Delivery: Full block	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed	MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Lecturer to be confirmed	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed	MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Lecturer to be confirmed	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed	MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Lecturer to be confirmed	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed	MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Lecturer to be confirmed	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Lecturer to be confirmed	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed	MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Lecturer to be confirmed	MEC02 Epidemiology for Disease Modelling (Epidemiology II) Lecturer to be confirmed	MEC04 Developing Mathematical Models in Public Health (Mathematical Modelling II) Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MEC02 / MEC04	Tutorials MEC02 / MEC04	Tutorials MEC02 / MEC04	Tutorials MEC02 / MEC04	Tutorials MEC02 / MEC04

Block 6 weekly timetable

Programme period: 15–19 Feb to 1–5 Mar. Apply the teaching pattern within each course's delivery dates shown below.

MEC09 Professional, Project, and Entrepreneurship Development Delivery: Full block	Lecturer: To be confirmed
MEC05 Model Fitting and Validation (Mathematical Modelling III) Delivery: Full block	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed	MEC05 Model Fitting and Validation (Mathematical Modelling III) Lecturer to be confirmed	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed	MEC05 Model Fitting and Validation (Mathematical Modelling III) Lecturer to be confirmed	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed	MEC05 Model Fitting and Validation (Mathematical Modelling III) Lecturer to be confirmed	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed	MEC05 Model Fitting and Validation (Mathematical Modelling III) Lecturer to be confirmed	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MEC05 Model Fitting and Validation (Mathematical Modelling III) Lecturer to be confirmed	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed	MEC05 Model Fitting and Validation (Mathematical Modelling III) Lecturer to be confirmed	MEC09 Professional, Project, and Entrepreneurship Development Lecturer to be confirmed	MEC05 Model Fitting and Validation (Mathematical Modelling III) Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MEC09 / MEC05	Tutorials MEC09 / MEC05	Tutorials MEC09 / MEC05	Tutorials MEC09 / MEC05	Tutorials MEC09 / MEC05

Block 7 weekly timetable

Programme period: 15–19 Mar to 29 Mar–2 Apr. Apply the teaching pattern within each course's delivery dates shown below.

MEC06 Numerical Methods Delivery: Full block	Lecturer: To be confirmed
MEC07 Introduction to Data Analysis (Data Analysis I) Delivery: Full block	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MEC06 Numerical Methods Lecturer to be confirmed	MEC07 Introduction to Data Analysis (Data Analysis I) Lecturer to be confirmed	MEC06 Numerical Methods Lecturer to be confirmed	MEC07 Introduction to Data Analysis (Data Analysis I) Lecturer to be confirmed	MEC06 Numerical Methods Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MEC06 Numerical Methods Lecturer to be confirmed	MEC07 Introduction to Data Analysis (Data Analysis I) Lecturer to be confirmed	MEC06 Numerical Methods Lecturer to be confirmed	MEC07 Introduction to Data Analysis (Data Analysis I) Lecturer to be confirmed	MEC06 Numerical Methods Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MEC07 Introduction to Data Analysis (Data Analysis I) Lecturer to be confirmed	MEC06 Numerical Methods Lecturer to be confirmed	MEC07 Introduction to Data Analysis (Data Analysis I) Lecturer to be confirmed	MEC06 Numerical Methods Lecturer to be confirmed	MEC07 Introduction to Data Analysis (Data Analysis I) Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MEC06 / MEC07	Tutorials MEC06 / MEC07	Tutorials MEC06 / MEC07	Tutorials MEC06 / MEC07	Tutorials MEC06 / MEC07

Block 8 weekly timetable

Programme period: 5–9 Apr to 19–23 Apr. Apply the teaching pattern within each course's delivery dates shown below.

MEC08 Advanced Data Analysis (Data Analysis II) Delivery: Full block	Lecturer: To be confirmed
MEC10 Advanced Data Science for Epidemiology Delivery: Full block	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed	MEC10 Advanced Data Science for Epidemiology Lecturer to be confirmed	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed	MEC10 Advanced Data Science for Epidemiology Lecturer to be confirmed	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed	MEC10 Advanced Data Science for Epidemiology Lecturer to be confirmed	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed	MEC10 Advanced Data Science for Epidemiology Lecturer to be confirmed	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MEC10 Advanced Data Science for Epidemiology Lecturer to be confirmed	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed	MEC10 Advanced Data Science for Epidemiology Lecturer to be confirmed	MEC08 Advanced Data Analysis (Data Analysis II) Lecturer to be confirmed	MEC10 Advanced Data Science for Epidemiology Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MEC08 / MEC10	Tutorials MEC08 / MEC10	Tutorials MEC08 / MEC10	Tutorials MEC08 / MEC10	Tutorials MEC08 / MEC10

Block 9 weekly timetable

Programme period: 26–30 Apr to 10–14 May. Apply the teaching pattern within each course's delivery dates shown below.

MEE01 Survival Analysis Delivery: Full block	Lecturer: To be confirmed
MEE02 Time Series Analysis Delivery: Full block	Lecturer: To be confirmed
MEE03 Bayesian Statistics Delivery: Full block	Lecturer: To be confirmed
MEE04 Stochastic Models Delivery: Full block	Lecturer: To be confirmed

Time	Monday	Tuesday	Wednesday	Thursday	Friday
08:30-10:30 Morning lesson 1	MEE01 Survival Analysis Lecturer to be confirmed	MEE02 Time Series Analysis Lecturer to be confirmed	MEE03 Bayesian Statistics Lecturer to be confirmed	MEE04 Stochastic Models Lecturer to be confirmed	MEE01 Survival Analysis Lecturer to be confirmed
10:30-12:30 Morning lesson 2	MEE01 Survival Analysis Lecturer to be confirmed	MEE02 Time Series Analysis Lecturer to be confirmed	MEE03 Bayesian Statistics Lecturer to be confirmed	MEE04 Stochastic Models Lecturer to be confirmed	MEE01 Survival Analysis Lecturer to be confirmed
12:30-14:30 Lunch	Lunch break	Lunch break	Lunch break	Lunch break	Lunch break
14:30-16:30 Afternoon lesson	MEE02 Time Series Analysis Lecturer to be confirmed	MEE03 Bayesian Statistics Lecturer to be confirmed	MEE04 Stochastic Models Lecturer to be confirmed	MEE01 Survival Analysis Lecturer to be confirmed	MEE02 Time Series Analysis Lecturer to be confirmed
After dinner Evening tutorials	Tutorials MEE01 / MEE02 / MEE03 / MEE04	Tutorials MEE01 / MEE02 / MEE03 / MEE04	Tutorials MEE01 / MEE02 / MEE03 / MEE04	Tutorials MEE01 / MEE02 / MEE03 / MEE04	Tutorials MEE01 / MEE02 / MEE03 / MEE04
